SUMMARY

Motivated MCA graduate (2025) with hands-on experience in Python Full Stack Development, AI/ML projects, and web application development. Skilled in Python, Django, SQL, HTML, CSS, JavaScript, and backend system development with practical exposure to REST APIs, debugging, testing, and scalable application design. Experienced in developing real-time applications, collaborating with teams, and delivering responsive user-focused solutions. Passionate about AI/ML, full stack development, and modern software technologies. Seeking opportunities as a Python Full Stack / AI-ML Developer to contribute technical and creative problem-solving skills.

SKILLS

Languages: Python

Frontend: HTML, CSS, JavaScript

Databases: MySQL

Well versed in MS Word, MS Excel and MS Power Point

Soft Skills: Communication, Team Work, Learning new technology, Team Collaboration, Problem Solving, Quick Learning, Adaptability

EXPERIENCE

Python Intern – CNC Web World, Vijayapura

Jun 2023 – Aug 2023

- Developed Python-based backend modules and REST APIs for web applications.
- Assisted in debugging, testing, and improving application performance and reliability.
- Collaborated with developers during deployment and maintenance activities.

Full Stack Developer

Nov 2024 – Jan 2025

- Developed responsive frontend pages using HTML, CSS, and JavaScript.
- Worked on backend integration and database management using SQL.
- Participated in application testing, debugging, and deployment activities.

PROJECTS

Banking Management System – Frontend Developer

- Designed and developed responsive frontend interfaces for banking operations using HTML, CSS, and JavaScript.
- Collaborated with team members to improve UI functionality, usability, testing, and project documentation.

Real-Time Multi-Spectral Iris Extraction System – Full Stack Developer

- Developed an AI-based iris recognition system using Python, OpenCV, Flask, and Deep Learning techniques for real-time iris detection and comparison.
- Implemented CNN/UNet-based segmentation, webcam integration, and biometric feature extraction for accurate iris analysis and visualization.

AWS DevOps Platform – Full Stack Developer

- Developed a full stack AWS DevOps training platform using React, Node.js, Express, and MongoDB with authentication, course management, and enquiry modules.
- Implemented Docker-based deployment, backend API integration, admin dashboard functionalities, and responsive frontend design for scalable application management.

EDUCATIONAL QUALIFICATION

Master of Computer Application (MCA), BLDEA's College of Engineering and Technology Vijayapura

Dec 2023 - Nov 2025 | GPA: 8.4

- Focused on Python backend development, Microservices, and SQL systems

Bachelor of Computer Application (BCA), Chetana BBA and BCA College Vijayapura

Jun 2020 - Jul 2023 | GPA: 7.15

- Focused on Web Development, DBMS, and programming fundamentals

ADDITIONAL COMPETENCIES

- Ability to learn new technologies quickly and work efficiently in a team environment.
